

BRUSH PICK-UP

BIANNUAL BRUSH PICK-UP SERVICE REINSTATED

The biannual roadside collection of brush has been reinstated as a service provided by the City's Public Works Department. City crews will collect brush from residents throughout the City in the spring during the week of May 19 – 23 and in the fall during the week of October 20 – 24. All residents must have any brush to be picked-up properly placed out along the edge of the road prior to City crews servicing their neighborhood. In order to maintain efficient operations, crews will not be dispatched back to a neighborhood to collect brush piles that were not out in time for the initial collection. To ensure collection of their brush, residents will need to have their brush properly placed prior to May 19 for the spring collection and prior to October 20 for the fall collection. Properly placed brush shall consist of woody vegetative material less than 32 inches in diameter and no more than eight (8) feet in length. This can include brush, tree limbs and tree trunks that are cut as required to meet the dimensional requirements indicated above. A partial list of materials that are not acceptable and will not be picked-up includes grass clippings, leaves, yard and garden debris, dirt, rocks, root balls, scrap wood, bricks, concrete, garbage and recyclables. Brush shall be piled off the edge of the road with the butt ends facing the roadside.

Following is a checklist summarizing proper preparation of brush for the spring collection:

- All brush must be at the road side prior to Monday May 19, 2008 to ensure collection.
- All brush shall be less than 32 inches in diameter.
- Brush must be piled off the edge of the road with the butt ends facing the roadside and must be cut to a maximum length of eight (8) feet.
