

WOOD CHIPS

The City currently does not have wood chips available for early spring pick-up or delivery. It is anticipated that wood chips may be available sometime in June. Once wood chips become available, there will be a stockpile available to City residents for pick-up at the Public Works Building, 111 Main Street. Delivery of wood chips can also be arranged by filling out a request form at City Hall. The 2008 prices for delivery are \$30 for a half truck load (3 cubic yards) and \$40 for a full truck load (6 cubic yards). Deliveries will be filled on a first-come-first-served basis until the supply of chips for private orders is depleted. The City retains a supply of the chips for use at parks and other public property. Refunds will be given for orders that can not be filled due to supply shortages.
